NH Rapid Response
Non-Financial Memorandum of Understanding (MOU)
July 1, 2019 – June 30, 2023

SECTION I: OVERVIEW

New Hampshire Rapid Response is defined by the strength and depths of its partnerships. Its network of State, local and community partners are diverse, innovative and compassionate. The magnitude of its reach can be felt from the state line in southern New Hampshire to the most northern border touching Canada.

Rapid Response is a complex, challenging, and invaluable resource. The extensive collaboration between multiple, separate and state and federal agencies, private entities, and community supports has proven invaluable to NH companies and their workers. Rapid Response customers have benefitted immensely from the partnerships with economic development activities, apprenticeships and incumbent worker programs, Trade Act programs, and numerous other reemployment programs. Partner assistance has also provided vocational health, financial and educational resources and supports to workers and their families. The experience and dedication of the Rapid Response Partners, State and Local Teams, and Federal supports has consistently allowed for the highest degree or quality and service delivery to participants throughout New Hampshire.

The DED Regional Business Resource Specialists will be responsible for collecting information from partner agencies and other resources, and determine which materials will be provided to dislocated workers and/or employees as applicable.

**SECTION III: RAPID RESPONSE PROCEDURES**

In general, a minimum of twenty-five (25) workers must be affected to trigger the full engagement of the local Rapid Response team in response to a local layoff (i.e., formal rapid response information sessions), with consideration given to available resources in the local NH Works/American Job Center. When the number of affected workers is less than twenty-five (25), the workers will be provided with Rapid Response Guides and referred to local NH Works/American Job Center offices for re-employment services.

It is important that NH Works personnel contact the DED Regional Business Resource Specialist when they become aware of layoff activity (announced or rumored). The DED Regional Business Resource Specialist will confirm the activity and clarify the information to share with the local are Rapid Response team. This messaging procedure will reduce the likelihood of inaccurate rumors and enhance the effectiveness of coordinated communication.

Worker participation is critical to the success of the readjustment process and is ensured when employer cooperation is an early and collaborative part of the process. To achieve the highest level of worker participation, the DED Regional Business Resource Specialist will contact company officials to:

a) confirm the information regarding layoff or closure activity,

b) describe NH Rapid Response services, and
c) request a list of dislocated workers with contact, occupational, and profile information, if available, to share with the local NH Works office staff

In the event of a layoff or closure of 25 or more workers, in addition to the steps listed above, the DED Regional Business Resource Specialist will request input from the company to:

d) complete a Rapid Response Fact Finding Report, and
e) arrange for onsite Rapid Response Information Session(s)
Receipt of a state or federal WARN Act by any personnel shall immediately be forwarded to the NH Commissioner of Labor, with copies to the Commissioner of Business and Economic Affairs, the State Director of OWO, and the Commissioner of Employment Security. No other actions including contact with the filing employer, shall be initiated without authorization.

The NH Department of Labor shall maintain a list of all state and federal WARN Act notices received.

Rapid Response services are utilized for every worker group that files a Trade Adjustment Assistance (TAA) petition. Once a company has been certified for TAA, if the worker information has not already been obtained, NHES contacts the certified company in order to request a layoff list with addresses, separation date, etc. Upon receipt of the layoff list, the information is loaded into NHES’ database and a letter advising workers of certification is immediately sent. Benefits Information Sessions are scheduled by NHES staff and all adversely affected workers are invited to attend through a direct mailing. A comprehensive overview of the benefits and services is given and NHES staff schedule one-on-one assessment interviews with workers at that time. A WIOA staff person is also invited to attend the sessions to describe the benefits of co-enrolling in WIOA funded programs.

Rapid Response Informational Meetings

A Rapid Response Information Session will be offered to dislocated workers in a timely manner, preferably, on site at the company. The information session, whenever possible, should not be held on the day of the notification. Alternative neutral sites may be utilized when onsite meetings are not feasible or permitted. It is the responsibility of the Rapid Response team to ensure workers are given an opportunity to attend a Rapid Response Information Session in the absence of employer involvement.

The main purpose of the Rapid Response Information Session is to inform workers of the availability of re-employment services. The meeting also helps workers cope with the emotional, financial and job-hunting stresses that accompany unemployment.

Rapid Response informational meetings are facilitated by the DED Regional Business Resource Specialist. Each required partner agency provides a general overview of the specific services they provide. Other partners may be invited to participate if it is determined by the DWUA that such participation would be of direct benefit to the affected workers. In general, third party entities with a direct financial and/or competitive gain will not be allowed to participate in Rapid Response informational sessions.

The DED Regional Business Resource Specialist will:
